### **DETAILED ACTION**

Applicants preliminary amendments, Paper No. 4, 5/1/2002 and Paper No. 6, 2/27/2002, amending the specification, canceling claims 2-7 and adding new claims 8-19, are acknowledged. Claims 1 and 8-19 are present for examination.

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 and 8-11, drawn to a method for reproducing *in vitro* the RNA-dependent RNA polymerase activity or the terminal nucleotidyl transferase activity encoded by hepatitis C virus, classified in class 435, subclass 15.
- II. Claims 12-19, drawn to a method for identifying a HCV RNA-dependent RNA polymerase inhibitor, classified in class 435, subclass 6.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, the different inventions of Groups I and II are independent and distinct, as they comprise different steps, utilize different products and produce different results.

Art Unit: 1652

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

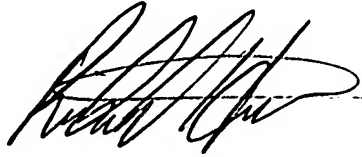

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
